B2B Meetings

Dear Attendees,

We are glad to announce the **6th International Conference on Brain Disorders and Therapeutics** to be held in **Copenhagen, Denmark** from **September 13-15, 2018** in collaboration with generous support and cooperation from enthusiastic academicians and editorial Board Members.

Brain Disorders 2018 will be organized around the theme "New Horizons and Global Perspectives in Neurology, Psychiatry and Brain Research"

As science has evolved, many innovations in the research field address various neurological and brain disorders from their root causes which holds significant promise in providing treatments for those disorders. Due to the large complexity of neural networks, researchers still have a limited understanding on the brain and its mysterious functioning, so most medications and therapies target symptoms rather than root causes

So, to get involved in understanding brain's complicated behaviour we are happy to provide you all the best platform to share your views on challenging multiple disciplines of Brain disorders, neurological and psychiatric disorders, mental health conditions, and more!!

We look forward to personally welcoming you to **Copenhagen** this **September.**

Sincerely,
Brain Disorders 2018
Organizing Committee

B2B Meetings

Major Sessions

- Brain and Neurological Disorders
- The Brain and Spine
- Psychiatry and Addiction
- Neurosurgery
- Neurodegeneration and Aging Disorders
- Cognition and Behaviour
- Neurological Nursing
- Neurobiology and Pathophysiology of Disorders
- Ananlysis, Assessment and Diagnosis of Disorders
- Neurochemistry and Neuropharmacology
- NeuroImmunology and Neuroinflammation
- Novel Therapeutic Strategies
- Computational Brain and Neural Engineering
- Biofeedback/Neurofeedback
- Animal models in Brain Research
- Others

Who should attend

Neurologists, Neurosurgeons, Psychiatrists, Brain researchers, Neuro Oncologists,Pharmacists, Research scientists, Neurology Organizations and societies, Business delegates, CEO's and R&D Heads from Industries, Directors, Industrial Leaders, Pharmaceutical companies, Neuro and CNS drug Industries, Neuroscience associations & foundations, Professors and Students from Academia in the study of Neurology and Neuroscience and researchers who utilize novel techniques and knowledge in diagnosing and treating brain and neuronal disorders.

Special Issues : All accepted abstracts will be
published inrespective Conference Series llc LTD Journals
Each abstract will be provided with digital Object Identifier by Crossref

Benefits of Joining Brain Disorders 2018

Academic

- Speakers: Global networking, Best platform to develop new partnership & collaborations. Meet Experts & Influencers Face to Face and Networking with peers in the research field of Neurology and Brain Disorders
- Provides with the tools and skills which you cannot be taught in-house or online
- Students: They will get the opportunity to meet their role models in the research field and can expose their research work to the world class experts.
- Budding researchers can learn in a new space, the new tips & tactics and expand their knowledge
- Abstracts will be published in the conference souvenir and respective International journals with unique (DOI) Number provided by Cross Ref
- Best Poster Award and Outstanding Young Researcher Award geared towards best budding young research.

Business

- Top Industries Representation: Exquisite Platform for showcasing company products and International Sponsorships
- A wide track of Exhibitors to showcase the new and emerging technologies.
- Exhibitor booths were visited 4-5 times by 80% of the attendees during the conference.
- A great opportunity for the small scale organizations looking for global reorganization of their products and services

Collaborations across Academia & Industry

Special Group Registration benefits (5 members to 100 or more…)

About Conference

Brain Disorders 2017 Conference website is attracting 56000+ Neurologists, Neurosurgeons and Psychiatrists, Brain Researchers, Neuro Oncologists, Pharmacists, Research scientists, Neurology Organizations and societies, Pharmaceutical companies, Neuro and CNS drug Industries, Neuroscience associations, Professors and Students.. This unique opportunity that we extend to our speakers and attendees is not being offered by any other conference organizers. Through this the abstracts and research profiles of our speakers and organizing committee members getting global visibility which is an additional feature that you would be receiving in addition to networking opportunities before, during and after the conference.

Brain Disorders 2018 salient features

- Meet Academia and Industry visionaries to get inspired
- Expand your knowledge and find solutions to problems
- Knowledge, Benchmarking and Networking offered at one place
- Forge connections and for global networking
- Highly Organized and Structured Scientific programs
- Poster presentations and world class exhibitions
- Meet with new vendors and suppliers

How our Conferences differs from others?

- 3000+ Conferences across the globe in 30+ countries all through the year
- Over 25 Million+ Visitors and 20000+ Unique Visitors per conference
- Participation by Stalwarts from various international societies
- Internationally renowned speakers and scientists representation
- Career guidance for early career researchers and students
- Interesting scientific deliberations and discussions
- Perfect platform for Global Networking

Goals

- The conference program emphasizes evidence-based practice, educational innovation, practical application, and peer to peer networking and collaboration. The goals of the conference is to provide a transformative professional development experience through
- Bringing together the world's scientific experts to catalyze and advance scientific knowledge about Brain Disorders and Therapeutics present the most recent research findings, and promote and enhance scientific collaborations around the world.
- Bringing together community leaders, scientists, and policy leaders to promote and enhance programmatic collaborations to more effectively address brain diseases and neurological problems and overcome barriers that limit access to care and services.

Objectives

After participating in this meeting, attendees should be able to

- Discuss emerging issues in Brain Research and Neurology
- Discuss and apply recent research findings related to Brain Disorders and Neurological disorders
- Disseminate the diverse voices of breakthrough innovators with visionary and practical solutions

About hosting organization

Conference Series is the world's leading specialist in organizing Academic, Scientific and Business conferences, meetings, symposiums and exhibitions in different verticals and horizontals like Medical, Pharma, Engineering, Science, Technology and Business to promote scientific research. Every year we host more than 3000+ global events inclusive of 1000+ Conferences 1000+ Symposiums 1000+ Workshops in USA, Europe, Middle East and Asia with the generous support and cooperation from our 30000+ Editorial Board Members, 1000+ Scientific Societies. All the conference proceedings are published in the special issues of our 700+ Open Access International Journals with the DOI provided by Crossref

About Copenhagen, Denmark

Denmark is a kingdom of thriving cities and idyllic landscapes, an innovative society with a green lifestyle. According to the UN's World Happiness Report for 2016, Denmark is officially the happiest country on Earth.

Denmark is a small country of 5.5 million people, with around 300 neurologists and clinical neurophysiologists working in hospitals, and only about 20–25 in private practice. There are 20 departments of neurology and large outpatient clinics. Brain disorders are very prevalent in Denmark and they cause high societal and personal cost. One of the many positive aspects of life in Denmark is its universal health care system. So, Denmark is facing growing demand for healthcare services due to an aging population and an increasing group of chronically ill patients. Copenhagen brings together major universities as well as biotech, medtech and life science companies. It is also home to a number of global healthcare companies, including Coloplast, Ambu, Falck, Philips and Novo Nordisk.

Coming to the city, Copenhagen inspires its visitors with award-winning New Nordic cuisine, an abundance of attractions and sightseeing and an almost perfect mixture of historic and modern Danish design and architecture. The dynamic Danish capital features progressive modern architecture, the must-visit Tivoli Gardens amusement park, stunning palaces, and all the activities and amenities you would expect in a world-class destination.
